Commission permanente du conseil municipal sur les services aux citoyens

Cleanliness program 2011-2015

As part of the development of the Cleanliness program 2011-2015, the committee on services to citizens would like to consult the population regarding a number of propositions presented under three axes, namely citizen behavior, work organization and inspection and regulation. The results obtained from the implementation of the first program, developed in 2006 and implemented from 2007 to 2010, made it possible for the Unité de la propreté et du déneigement to set new objectives. Various groups, internal and external, were consulted in order to validate the objectives of the city's second cleanliness program. The committee will welcome citizens' comments and briefs concerning these new propositions to integrate in the Cleanliness program 2011-2015, during the following meetings:
