The standing committee on water, the environment, sustainable development and large parks will hold a public study pertaining to the canopy action plan "*Plan d'action canopée 2012-2021*" aiming to extend the tree cover from 20% to 25% of the territory of the island of Montréal. The action plan, particularly targeting the private sector, aims for the planting of 120,000 trees on public property and 180,000 trees on private and institutional property.
